

## DE06-18 Power adaptor 18 V / 0.3 A

Power adaptor with a 1.1 m flexible cable terminated by a plug is intended for powering Jablotron devices. The compact dimensions of the case allow installation into a standard electro-installation junction box for hidden installation beneath Jablotron wall-box-mounted products such as the above-mentioned items. The screw holes for M3 screws are also useful for installation in typical junction boxes where fixing is required.

**Installation shall always be provided by a qualified electrician.**

### Technical specifications

Supply voltage	100 ~ 240 V AC, class protection II
Output voltage	18 V DC ( $\pm 2\%$ )
Output current	300 mA
Peak output current T<5 min	700 mA
Output power	12 W max.
Short-circuit protection and overload protection	yes
Enclosure protection	IP64
Dimensions	50 x 48 x 25 mm
Input cable	length 110 mm (230 V), diameter 1.3 mm (AWG 16)
Operational conditions according to	EN 50131-1
	II. Environmental class
Working temperature range	-10°C to +40°C
Complies with	EN 50130-4, EN 55022, EN 60950-1

JABLOTRON ALARMS a.s. hereby declares that the DE06-18 is in compliance with the essential requirements and other relevant provisions of Directives 2006/95/EC, 2004/108/EC and 2011/65/EU. The original of the conformity assessment can be found at [www.jablotron.com](http://www.jablotron.com), Technical Support section

**Note:** Although this product does not contain any harmful materials we suggest you return the product to the dealer or directly to the producer after use.
