

“Our aim is to identify our customers’ current and future needs in the field of applied electronics and medical devices – quickly and to a high standard...”

Quality policy

○ Development of products and services

JABLOTRON ALARMS a.s. combines its prosperity and welfare with an effort to meet its customers’ needs and to anticipate their wishes in the future. Its primary aim is to offer products and services that are innovative, attractive, reliable, safe, with high utility and aesthetic value, and which comply with the international standards.

○ Focus on the customer

JABLOTRON ALARMS a.s. provides customers with the necessary information, services and facilities, as well as quality service work and technical support. It systematically logs and evaluates its customers’ comments and wishes and responds to them.

○ Successful sales

Products from JABLOTRON ALARMS a.s. must be available in an extensive network of carefully selected qualified trading partners at attractive prices. The fact that we meet all our agreed and declared cooperation terms goes without saying.

○ Perfect company operations

As a company, we will do everything we can to ensure that all the work our employees perform is focused on systematically improving our internal processes, furthering qualifications, strengthening our good reputation and serving as a model of quality and a professional approach.

○ Secure access

We place great emphasis on securing the information we have been entrusted with and handle. We see it as our responsibility to ensure the corresponding degree of protection, which is why we are actively developing an integrated and controlled system of balanced security measures.

Jablonec n. Nisou, 20. 9. 2017

David Beneš | Managing director,
JABLOTRON ALARMS a.s.

“The assortment for customers may only be sold by a company that operates perfectly.”
