

## MCB-02 CAN BUS module

The module is intended for connection to a CAN-BUS data interface in motor vehicles with a 12/24 V voltage and a negative ground connected to chassis.

○ [Declaration of conformity - MCB-02 \(PDF 317.19 kB\)](#)

### Description

The module converts digital information to analogue form, thus providing interconnectivity to the inputs of Athos, Nestor and other car alarms.

### MCB-02 car alarm output module

The MCB-02 cooperates with the data BUS of Jablotron car alarms. And it also serves as an output module which outputs the functions of those car alarms.

### Technical specifications

<b>Supply voltage</b>	12/24 V (10 - 32 V) DC
<b>Current consumption</b>	8 mA
<b>Operational temperature range</b>	-40 °C to +85 °C
<b>Dimensions without wiring</b>	17 x 47 x 66 mm
<b>Weight</b>	34 g
<b>Comply with ECE Regulation No:</b>	010.04
