

## MCO-04 Car alarms output module

The product is an extension module for CA-2103 and CA-345 series car alarms for controlling appliances in the vehicle - independent heating, power supply for additional detectors, control of optical signalling and other functions.

### Caractéristiques techniques

<b>Supply voltage</b>	12/24 V (10-32 V) DC
<b>Current consumption</b>	8 mA
<b>Operational temperature range</b>	-40 °C to +85 °C
<b>Dimensions without wiring</b>	17 x 47 x 66 mm
<b>Weight</b>	34 g
<b>Maximum switched current</b>	200/10 mA
<b>Comply with ECE Regulation No: 010.06</b>
