

MCO-04 Car alarms output module

The product is an extension module for CA-2103 and CA-345 series car alarms for controlling appliances in the vehicle - independent heating, power supply for additional detectors, control of optical signalling and other functions.

Specyfikacja techniczna

| | |
|--|----------------------|
| Supply voltage | 12/24 V (10-32 V) DC |
| Current consumption | 8 mA |
| Operational temperature range | -40 °C to +85 °C |
| Dimensions without wiring | 17 x 47 x 66 mm |
| Weight | 34 g |
| Maximum switched current | 200/10 mA |
| Comply with ECE Regulation No: 010.06 | |
