Descrição

The **OS-365A** is equipped with a **magneto-dynamic horn siren** mainly suitable for family houses or for buildings with more space around them. **Two tamper switches** are built into the unit. They react to removing the cover from the unit or removing the siren from the wall. The siren's housing is made of mechanical-, weather- and UV-resistant plastic. The circuit board is protected against air humidity by a double layer of varnish.

Especificações técnicas

Power supply

10 to 17 V DC

Current Consumption

< 50 mA / 12 V

Backup battery

NiCd pack 4.8 V / 1800 mAh
Lifetime approx. 3 years

Electro-acoustic siren sound level

110 dB / 1 m

Siren timer

5 minutes

Flasher timer

30 minutes

Resistance of the tamper loop in stand-by

< 70 Ω

Security grade 2 (without internal cover)

EN 50131

Environmental class IV

-25 to +60°C

Dimensions

230 x 158 x 75 mm
